EXPERIENCE

I have worked on personal projects and participated in group projects, and I am currently doing an internship at [AVB INVEST America](#), an international company.

FREELANCING/TRAINING PROJECTS

GitHub: [Travel App Project](#)

Travel App Project – A monolithic application built by a team of four. Awarded a certificate by PDP Academy for the project's excellence.

GitHub: [UCom Platform](#)

UCom Platform – A microservices-based system designed to facilitate seamless interaction between users and companies. Developed using Spring Boot, REST APIs, Swagger, Docker, and Spring Cloud components, including Eureka Server for service discovery, Spring Cloud Gateway for routing, and Config Server for centralized configuration. This project helped me secure an internship at AVB Invest, an international company.

EDUCATION

IT FUNDAMENTAL COURSES • [Najot Ta'lim](#)

I studied in the Foundation course at Najot Ta'lim training center in 2023 and successfully completed it at the beginning of 2024.

JAVA DEVELOPMENT COURSE • [PDP ACADEMY](#)

At the beginning of 2024, I started studying Java programming at PDP Academy and successfully completed the course.
